

# [ADAPTOR HAVING VIDEO/AUDIO PLAYER FUNCTIONALITY]

## Abstract

An adaptor having video/audio player functionality is disclosed.

The adaptor has a data storage device, without video/audio player functionality and an encoder/decoder device, for encoding/decoding the video/audio data, the encoder/decoder device is connected to an USB port adapted for connecting to the data storage device, wherein the encoder/decoder device decodes the video/audio data stored in the data storage device so that the decoded video/audio data can be played via video/audio device connected to the encoder/decoder device via the USB port.
